

Directions for Coaster and Hot Pad

Directions for Coaster are shown; hot pad is in ()

Supplies

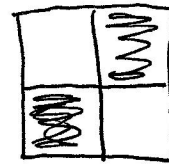

6 – 4.5" (9") Squares of Fabric, 3 of two different colors

1 – 4.5 (9") Square of Batting. I used Insul-brite for the Pot Holder

Take two of each color and press them in half.

Layer one 4.5 (9) square right side down, batting, and a square right side up. Place the folded squares on top of the pile with raw edges to the outside. Layer them so that you have four squares showing on the top. You weave them together. Pin in each quarter. For the Pot Holder, I use washable glue to stabilize. See illustration.

Stitch $\frac{1}{4}$ ' from the edge. Turn right side out and press. Done

Note: If you want to have a loop on the pot holder, place it between the top square and the folded squares before you stitch them together.
